AirPort ready

iPhoto, iTunes, iMovie, iDVD

angry  
young  
computer

**Burroughs Corporation**

See a Burroughs computer in action. Election Night, ABC-TV.

Our B 200 can outdo any computer in its class. Any computer, regardless of name or initials. So naturally, when it sees a system being bought or leased on the basis of name or initials, the B 200 gets angry. Because it knows it can do a better job for fewer dollars. If you know anybody who's considering a computer, do him a favor. Mention the Burroughs B 200. The same goes for anybody who's angry at his present computer. And we hear a lot of people are. Burroughs™

NEW WALKMAN. Debut!  WALKMAN

*hold the future in your hand*  
with **SONY**  
RESEARCH MAKES THE DIFFERENCE

**THIS IS TELEVISION OF THE FUTURE.** This is the personal set predicted for the decade of the Seventies. So light and compact you carry it with you like a book, wherever you go. Put it beside your bed, on your desk at the office, out-doors for picnicking on the patio, in the back of the car or on the boat. It plays anywhere on its own rechargeable battery pack, auto battery or AC, with a picture so bright and sharp ordinary sets pale by comparison. Weighing only 8 lbs., it is hardly larger than a telephone, yet it out-

performs standard receivers in sensitivity and durability. Available only in limited quantities, SONY brings it to you today through its advanced research in the epitaxial transistor, so powerful and sensitive it is used only in computers and other advanced electronic equipment—and the new Micro-TV. It would be no exaggeration to say that someday all TV will look like SONY Micro-TV. But why wait for someday? See it today at selected dealers. SONY Micro-TV list \$229.95. Optional battery pack.

See and hear the world famous SONY micro-transistor, battery operated radio at selected dealers.
